Thuy,

Here are some comments. Please let me know if there is anything else I can do to help! Thanks.

Tristan

Subject: PFAS cover memo

Good morning Tracy and Tristan

Attached is a memo that I drafted for the results of our lab study on the rinsates of the containers.

Based on the non-CBI info that we received from Inhance, I decided to add a paragraph under Conclusions (in red) to further explain why we think PFAS came from the fluorination process.

Can you please read the memo and comment? I need to get this back to Kimberly Nesci (my boss) by end of day today.

Thanks

Thuy
